REMA TIP TOP – the Brand for Top Service

REMA TIP TOP is the leader in high-quality conveyor maintenance, wear protection, and corrosion protection. Our field splicing and service capabilities are unprecedented in the industry. **REMA TIP TOP** and **TIP TOP Industrial Service**'s expertise, in combination with a can-do attitude, sets us far apart from the competition.

Service is available 24 hours a day / 7 days a week for emergencies with highly trained and certified technicians. All repairs, installations, and maintenance can be done on-site or within our shops. Our shops are strategically located throughout the U.S., all with complete service capabilities.

CONVEYOR MAINTENANCE

- Pulley Lagging and Idler Sleeves
- Hot Vulcanized Belt Splicing and Repairs
- Cold Bond Belt Splicing and Repairs
- Cold Bond Repair Materials and Kits
- Skirtboard and Scraper Rubber
- Belt Scrapers and Belt Cleaning Brushes
- Slider Bed Bars
- Rubber Working Tools
- Belt Vulcanizing Presses
- Conveyor Belt Installation
- Conveyor Maintenance Service

TIP TOP Industrial Services insures that your conveyor system runs as smoothly as possible. Conveyor maintenance will provide your system with a longer service life, reduced down time, safety improvements and increased production; all of which improve your bottom line.

WEAR PROTECTION

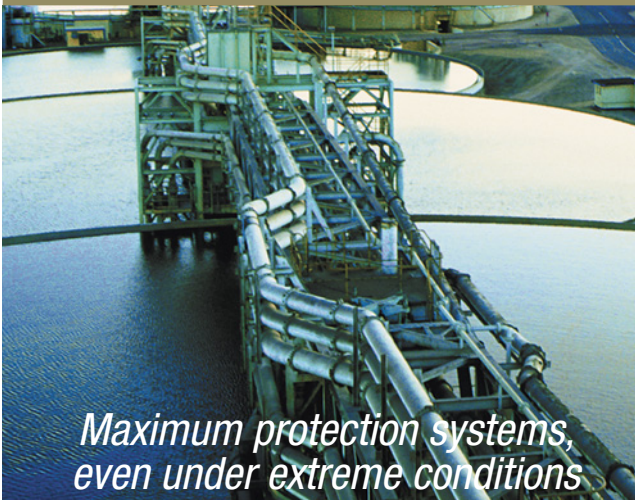

Optimal solutions for your wear problems

- Rubber Linings
- Molded Rubber and Ceramic Linings
- Impact and Wear Plates & Bars
- Urethane Linings
- UHMW-PE Linings
- PTFE Linings
- Wear Hoses
- Rubber Working Tools
- Field Installations or Workshop Lining Services

REMA TIP TOP's sales and service teams will work out the best solution for your company's application. Our lining materials protect against wear caused by impact and sliding abrasion, will greatly reduce noise levels, help to reduce dust and can prevent caking and bridging of material in your transfer points; all of which improve health, comfort and most importantly, safety. Our team can advise, install, and support our products with the technical expertise that only comes from many years of experience.

CORROSION PROTECTION

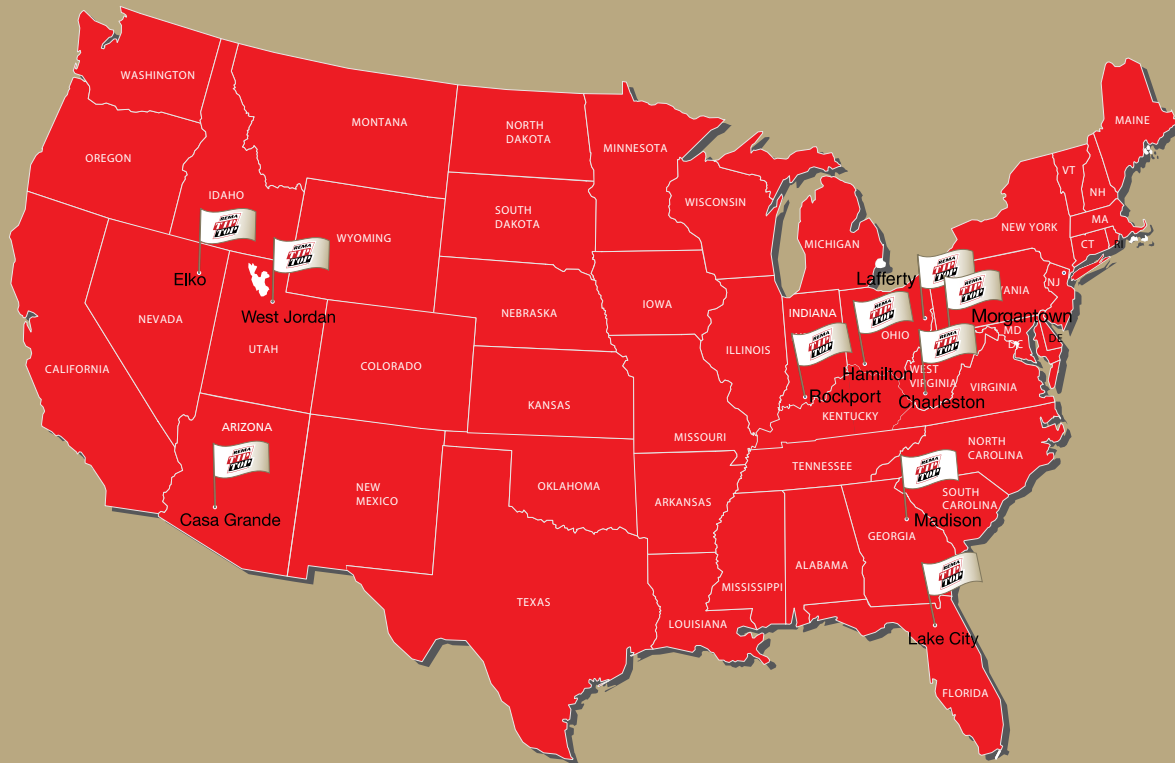

*Maximum protection systems,
even under extreme conditions*

- Pre-Vulcanized Extruded Soft Rubber Lining Materials
- Self Vulcanized Extruded Soft Rubber Lining Materials
- Autoclave Vulcanized Extruded Soft & Hard Rubber Lining Materials
- Vinyl Ester Flake Glass Spray Lining Systems
- Vinyl Ester Trowel Lining Systems
- Vinyl Ester Mat Reinforced Lining Systems
- Polyurea Coatings
- PU Coating Systems
- Rubber Repairs Systems and Tools
- Field Installation or Workshop Lining Services

REMA TIP TOP's corrosion protection will protect your company's systems even under the most extreme conditions. The **REMA TIP TOP CHEMOLINE** and **CHEMONIT** corrosion protection systems have been used successfully all around the world for many years. These systems cover a wide range of different applications and can be applied on-site or in the shop.
